

Dave McKeen, retired telecom engineer, invites talent from modeling and the performing arts to a photo session in a Trade for CD (TFCD) exchange for the purposes of building both of our portfolios. I am looking for dedicated, dependable girls and young women talent 5 through 25 who are passionate about their craft and are interested in developing a *professional portfolio*. Those interested should be cheerful, upbeat and conscientious about the quality of their communicators. Photo sessions are light hearted, high spirited, and laid back. The location for photo sessions will be at my studio in my home in Garland and immediately outside the studio. After we've exchanged all of our information, you are encouraged to come by my place, meet me, check the place out, and discuss your shooting ideas on a date before your photo session.

Please study some of the photo session galleries on my Web site. The most recent galleries should be of particular interest: <http://www.techno-imaging.com/> Read "About" and "Services" on the site. It should give you a good comfort level with what the setup and my shooting style are like. I'm open to shooting other styles (within my capabilities) too, so you are not constrained by what you see on the site.

If this opportunity has you interested I have more details including a model release to send to you. Contact me by email at dmckeen@techno-imaging.com. NOTE: I *DON'T* do family photography! Please don't ask. I have a [No Cell Phone Policy](#) I will ask you to agree to.

You will be rewarded with:

- **Proofs** of the entire photo session on CD on completion of the shoot (not for publication of any kind, posting on MySpace or the like, emailing or other distribution). I'll need you to sign a Release From Liability form in order for me to give you the CD. The only purpose of the proofs is to allow you to choose photos for me to consider in making a list for me to finish (retouch).
- After a set of photos has been retouched I will mail to you a CD containing all retouched images at full print-ready resolution including a label with my signature authorizing reproduction (including publication on Web sites of your choosing), a separate form, Assignment of Reproduction/Publication Rights, signed by me authorizing reproduction, and a contact sheet with thumbnails of all processed images on the CD.
- Instant fame as your images appear on my Web site at www.techno-imaging.com (your approval sought) which serves as an on-line portfolio for both of us. I can link from your entry on my site to your pages on profile hosting sites to enhance your exposure.

NOTE: Both you and I can decide which photos do and do not make it to my Web site, however you have the final veto. We can take some pictures that I can retouch for you for your book that don't go on the Web. I don't give out unprocessed camera images to anybody. I will process only those photos I consider flattering to the model and which represent me as a professional photographer. I apply my copyright signature to each finished photo. Reproduction/Publishing rights assigned to model are not transferable. That means the model cannot give permission to a magazine, for example, to publish her photos for profit.

You can find a photo of me, my bio and my photographer's resume on the About page of my Web site.
