

Dave McKeen, retired telecom engineer, invites talent from modeling and the performing arts to a photo session in a Trade for CD (TFCD) exchange for the purposes of building both of our portfolios. I am looking for dedicated, dependable girls and young women talent 3 through 29 who are passionate about their craft and are interested in developing a *professional portfolio*. Photo sessions are light hearted, high spirited, and laid back. The location for most sessions will be at my studio in my home in Garland. You are welcome to visit and meet me, check out the place, and discuss shooting ideas either before or after scheduling a photo session.

Please study some of the photo session galleries on my Web site. The most recent galleries should be of particular interest:

<http://www.techno-imaging.com/>

Look around the rest of the site as much as you can. It should give you a good comfort level with what the setup and my shooting style are like. I'm open to shooting other styles too, so I am not constrained by what you see on the site.

If this opportunity has you interested I have more details including a model release to send to you. Here is my contact info: E-mail is best at dmckeen1705@gmail.com and my home phone is 972-272-3128 . NOTE: I *DON'T* do family photography! Please don't ask. Photos we choose to finish have to be limited to those that would serve you well in your professional portfolio.

You will be rewarded with:

- Web photo gallery '**proofs**' of the entire photo session on CD (not for publication of any kind, posting on MySpace or the like, emailing or other distribution) at session wrap-up. I'll need you to sign a release from liability form in order for me to give you the CD. The only purpose of the proofs is to allow you to choose photos for me to consider in making a joint list to retouch.
- After the selected photos have been retouched I will mail to you a CD containing all retouched images at full print-ready resolution including a label with my signature authorizing reproduction (including publication on Web sites of your choosing), a separate form signed by me authorizing reproduction, and a contact sheet with thumbnails of all processed images on the CD.
- Instant fame as your images appear on my Web site at www.techno-imaging.com (your approval sought.) which serves as an on-line portfolio for both of us. Links from your entry on my site to your pages on profile hosting sites enhance your exposure.

NOTE: I retouch the final selection of photos to high resolution print quality before a Web photo gallery is made of them. Both you and I can decide which photos do not make it to my Web site, although I will usually retouch a few extras you like that don't go on the Web. I don't give out unprocessed camera images. I will process only those photos I consider flattering to the model and which represent me as a professional photographer.

Please send a couple clear (face and figure) photos and resume to help me get acquainted with you. Tell me what your age is and where you live. You can find a photo of me, my bio and my photographer's resume on the About page of my Web site.
